

# K5 Math

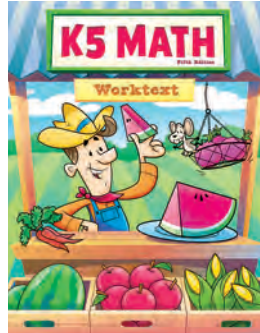

EDITION COMPARISON

**NEW**

## Updates

This edition contains numerous significant textual changes from the previous edition, including a new teaching approach that is woven throughout both the student worktext and teacher edition. Other revisions include new STEM lessons, money instruction, new story-driven chapter openers, essential questions, and learning targets for every lesson. Visuals have been updated and modernized throughout, and course objectives and scope and sequence have been updated.

*Because of these changes, this edition is not compatible with its predecessor.*

5th Edition

4th Edition

## Content Updates

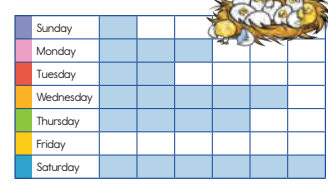

- Integrated four-step teaching cycle of engage, instruct, apply, and assess
- Added lessons to reach a total of 180 days of instruction
- Added STEM lessons throughout
- Restored money concepts that had been removed from the 4th edition
- Revised objectives and scope and sequence
- Improved biblical worldview shaping themes and development

## Special Features

- Chapter openers featuring worldview-focused stories, essential questions, and differentiated instruction
- Optional extended activities included with select lessons
- Biblical worldview shaping themes woven throughout and progressively developed throughout the course
- Learning targets in every lesson

## Textbook Snapshot
